

HAND FACE & BODY SCRUB

For skin to look and feel healthy it needs to be cleansed regularly from the dirt, chemicals and other pollutants including the bodies own natural oils, which clog the pores and inhibit the skin's natural rejuvenation process. Damage to the surface layers of the skin is also caused by exposure to the sun, wind and extreme temperature changes.

HAND FACE & BODY SCRUB (HFBS) is formulated using the highest quality natural ingredients to thoroughly cleanse the skin and leave it looking and feeling fresh and revitalized. It softens and moisturises the skin while it thoroughly cleanses and promotes the exfoliation process leaving the skin looking and feeling smoother.

HFBS is manufactured from:

- pine cellulose (tiny pine wood particles) that gently remove unwanted residue and nasties from the skin
- Essential oil of Lavender for its antiseptic and anti inflammatory properties
- Palm oil, because of its natural source of vitamin A and E and is high in Beta-Carotene (a natural anti-oxidant).

HAND FACE & BODY SCRUB is the ideal product when preparing for waxing and fake tanning and is an essential element in facials and pedicures.

HAND FOOT & BODY LOTION
